

# ARVENFAM 15

## MULTI PURPOSE IODOPHOR DISINFECTANT

Extremely powerful & fast acting.

- \* Active in the presence of organic matter.
- \* Quickly kills bacteria, viruses & fungi, cleans & disinfects in one operation.

### GENERAL CLEANING AND DISINFECTION:

When using in livestock housing: Remove all portable equipment, litter and manure and clean to remove heavy soiling. Apply disinfectant after adjusting the dilution to suit soil level and/or disease specific history of the house - i.e. between one part ArvenFam 15 to between 150 and 275 parts of water. Allow the area to dry if possible before replacing equipment and restocking. Also use a solution of ArvenFam 15 to treat buckets, cages, hatchery trays, drinkers, crates and other non-porous surfaces.

### WHEEL AND FOOTBATHS:

Use at a dilution of 1:45 and renew daily.

### AERIAL DISINFECTION:

Apply at a suitable dilution rate through a mist generator.

### OTHER USES:

ArvenFam 15 is a powerful and versatile detergent disinfectant, which may be used for a variety of applications in animal husbandry. Follow the dilutions as shown above, and if used for PRRS (Blue Ear Disease) dilute 1:100 with water.

### FISH NETS, HOLDING TANKS AND CRATES:

Use ArvenFam 15 at a dilution of 1:50 to prevent the spread of disease in ponds and fisheries.

Further information on specific uses and dilutions is available on request.
